

ISUZU
D-MAX

ACCESSORIES

ACCESSORISE YOUR WAY

Isuzu UTE Accessories are the perfect way to enhance and personalise your Isuzu D-MAX.

Select from an exceptional range of genuine and approved Isuzu D-MAX accessories designed to enhance both work and lifestyle choices. External accessories are engineered to augment the look and capability of your D-MAX, with awnings and roof bar options to equip you for whatever your next job or holiday will need. With Isuzu D-MAX Genuine Accessories all backed by a 3 year/100,000km warranty¹ and Isuzu UTE Approved Accessories backed by their own manufacturer warranties², you can be confident that Isuzu D-MAX accessories are built to last.

¹Three (3) years or 100,000 kilometres whichever occurs first, only eligible on Isuzu UTE Genuine Accessories fitted by an authorised Isuzu UTE Dealer at the point of sale of a new Isuzu D-MAX vehicle. ²Isuzu UTE Approved Accessories are not manufactured or warranted by Isuzu UTE Australia Pty Ltd. The warranty is provided by the manufacturer of the accessory. For more warranty information see the disclaimer on the back cover of this brochure.

EQUIPPED TO GET THE JOB DONE

A versatile range of genuine alloy and steel trays.

A job worth doing is worth doing right and we have the right tray for any job. Whether you're carting tools during the week or your toys on the weekend, there's a tray with the features you need that will make light work of any load.

Each cab chassis D-MAX can be customised with any of our genuine alloy or steel trays[#], which have all been developed specifically for Australian conditions.

Economy Alloy Tray - Standard entry level alloy tray.

General Purpose Alloy Tray - Standard alloy tray with added welded wire mesh window protector and tail light protectors.

Heavy Duty Alloy Tray - All features of the General Purpose Alloy Tray with a tube headboard and integrated tray step (on single cab trays only).

Heavy Duty Steel Tray - All Heavy Duty Tray features in sturdy steel with tie-down shackles built into the tray floor. Colour coding optional for cab chassis models.

Mine Specification Steel Tray - A sturdy steel tray with reflective side striping, a steel mesh window protector and headboard aerial mounts. Available in Mineral White only.

[#]The product name does not constitute a technical description as the core product includes additional materials which are designed to enhance the aesthetics, fitment & durability of the product.

Internal Load Restraint Rail

All alloy trays feature internal load restraint points, this means ropes or straps no longer need to pass over drop sides while restraining loads. This allows for maximum load security.

Drop Side & Tailgate Catches

Low coefficient of friction between operating surfaces, latch operation takes less effort as compared to traditional designs.

Quick Lock Hinge

Manufactured from an automotive grade glass reinforced nylon incorporating a captive stainless steel pivot pin. These hinges make it easy to detach the drop sides from the tray and are UV stabilised to ensure longevity.

Tail Light Protector & Wiring Guard

Offers increased protection from rocks, branches and other debris.

Mudguards

Manufactured from an automotive grade rubber modified polypropylene, this material has excellent memory characteristics so when deformed within its limits, it will return to its moulded shape.

Heavy Duty Tray Step

Provides a step-up for easy access and comes standard on heavy duty single cab trays.

Tube Headboard

Designed for increased protection.

Window Guard

Protects rear window from moving loads. Comes standard on all trays except Economy Alloy.

TOOLS FOR EVERY TRADE

Whether you need to gear up for the job site, or take your weekends to the next level, we have the perfect accessories for your tray.
